NOVELTIES 2012

A Total Look with Giardini Wallcoverings

Fine linen and silk fabrics, precious weaves designed by an internal team of stylists, and refined expertise in the combination of fabric and paper all combine to make **Giardini** one of the most exclusive brands in wallcoverings.

Year 2012 is a turning point for the development of the **Giardini** product range, achieving a rich array of new patterns and colours, and most importantly, a new collection matched with a marvellous assortment of wallpapers.

With a wealth of coordinated fabrics for interior decoration, **Giardini Wallcoverings** offers a truly unique and matchless range of products.

The rare elegance of the wallcoverings united with the tasteful charm of fabrics for curtains and draperies, upholstered furniture, and decorative pillows, open up worlds of possibilities creating spaces and settings which melt into a harmonious Total Look.

The allure of the **Platina Collection** draws on the contrast between its classic pattern and the modern qualities of its textiles: linen embellished with metallic thread.

The various possible combinations with quilted velvets and laminated cotton chenille give free rein to creativity in creating modern settings of distinctive character.

Platina wallcoverings:

- Available in three different versions, each presenting three variants, this line from the Platina Collection features a particular brilliance thanks to the combination of natural linen and a lamellar, metallic-effect thread.
 - _ Solid colour variant, lightly embossed on the front.
 - _ Striped variant, featuring the tactile qualities of cotton chenille thread.
 - _ Damask cloth variant printed with natural pigments (64 cm repeat).
 - _ Width: 130 cm, sold by lineal meter.
 - _ Material: 100% natural linen, lamellar thread.
 - _ Made in Italy.
